

Certificate of Authenticity

By this document, I, Steven James Stepan military historian and author of “SS Walther PP/PPK Identification & Documents” confirm the authenticity of Walther PP Serial #981 142 as issued by the SS through its subordinate organization the RSHA (Reich Security Main Office). Known as a Type 2 Variation, it can be identified by the serial number being present on both slide and frame. Prior to approx. serial #220 XXX P, the factory serial numbered only the frame unless produced under contract to the SS. Just twenty-six of this type are known to have been issued and with both authentic serial numbered magazines present, the level of rarity is extreme, possibly the only one in existence..

Steven J. Stepan
